

Direct Component Project Evaluation Form

Please complete the following information needed to evaluate your proposal. In order to be considered, complete evaluation packets must be received by **October 31, 2017**. Do not leave any questions blank; use N/A if not applicable to your project. The completed form is limited to 20 pages, including a 5 page limit for Section B.1 Proposed Scope of Work. See attached FAQs for submission information.

GENERAL INFORMATION	
Applicant Name:	Town of Dauphin Island
Point of Contact for matters concerning this project (POC name, email address and phone):	Mayor Jeff Collier 1011 Bienville Boulevard Dauphin Island, AL 36528 251-861-5525 email: jcollier@townofdauphinisland.org
Proposed Project Name:	Aloe Bay/Harbourtown - (Project Number 291) -Design and Engineering

A. RESTORE ACT PROJECT CLASSIFICATION

1. Qualifying eligible activity: Please check the primary eligible activity in the first column and then all other eligible activities that apply in the second column by placing an "X" in the column in the row corresponding to the qualifying eligible activity.	Primary Activity	All Others That Apply	Qualifying Eligible Activity
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Restoration and protection of the natural resources, ecosystems, fisheries, marine and wildlife habitats, beaches, and coastal wetlands of the Gulf Coast region
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Mitigation of damage to fish, wildlife, and natural resources
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Implementation of a federally approved marine, coastal, or comprehensive conservation management plan, including fisheries monitoring
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Workforce development and job creation
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Improvements to or on state parks located in coastal areas affected by the Deepwater Horizon oil spill
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Infrastructure projects benefitting the economy or ecological resources, including port infrastructure
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Coastal flood protection and related infrastructure
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Planning assistance
	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Promotion of tourism in the Gulf Coast Region, including recreational fishing
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Promotion of the consumption of seafood harvested from the Gulf Coast Region

2. Was this proposed activity included in any claim for compensation paid out by the Oil Spill Liability Trust Fund after July 6, 2012?

Yes No

If "Yes," this activity is not eligible for Director Component funding.

3. Location a) Please provide the actual location for the activity as street address, nearest intersection, or note boundaries on a submitted map. If there is more than one location for the activity, attach a list of the additional locations, city/town, county, state, and zip code.	Location:	Aloe Bay
	City/Town:	Town of Dauphin Island
	County:	Mobile
	State:	AL
	Zip Code:	36528
b) Applicants must demonstrate that the proposed activity will be carried out in the Gulf Coast Region. An activity is carried out the Gulf Coast Region when, in the reasonable judgement of the entity applying for a grant, each severable part of the activity is primarily designed to restore or protect that geographic area. Describe how the proposed activity will be carried out in the Gulf Coast Region as defined in 31 CFR 34.2. Applicant must also attach a map including the location the activity is primarily designed to restore or protect. (See FAQs)		
The proposed planning, design, engineering, and property acquisition work will be performed in Dauphin Island, Alabama located in the Gulf Coast Region as defined by 31 CFR 34.2.		

B. DISCUSSION OF SPECIFIC ACTIVITY

1. Proposed Scope of Work (See FAQs)

(a) Provide a detailed scope of work that fully describes the project or program for which funding is requested, including:

- Need, purpose, and objectives

Project Need (include cost of No Action):

Dauphin Island is located three miles directly south of Mobile Bay and is Alabama’s only barrier island. It is a small island only fourteen miles long and one and three-quarters wide at its widest point, and has 1,300 permanent residents. The island can be accessed by boat, the Dauphin Island Bridge, which is three miles long and connects the island to the southernmost tip of the mainland, and by ferry. Dauphin Island has a long history with five nations’ flags having flown over the island and its strategic location for maritime forces.

Dauphin Island has a strong marine culture and a storied past. As Alabama’s only barrier island, it has miles of pristine sandy beaches and is designated as a Globally Important Bird Area by the Audubon Society. The island’s 137-acre bird sanctuary is one of the top four viewing areas for migrating birds in North America, and has a well-developed recreational trail and interpretive center. Additionally, Dauphin Island has a well-developed fishing culture and hosts the Dauphin Island Deep Sea Fishing Rodeo which is the largest deep-sea fishing tournament in the world with over 3,000 anglers and 75,000 spectators visiting the island each year for the tournament. Dauphin Island depends upon tourism and the service industry with over 120 events booked each year on the island and over 320,000 day visits (2015, Town of Dauphin Island). There are several major tourist attractions including historic Fort Gaines, the Dauphin Island Estuarium, several miles of recreational bike and pedestrian trails, and a boat landing and ferry station that services Mobile and Baldwin Counties.

The Town of Dauphin Island has identified a restoration project that if approved for funding by National Fish and Wildlife Foundation and/or Alabama Gulf Coast Recovery Council, will serve to remedy harm and reduce the risk of future harm to Gulf Coast natural and commercial resources impacted by the Deep Water Horizon Oil Spill. Aloe Bay is located on the northern shore of the Town where there are a few private docks and commercial business that serve locals, visitors, and commercial population of the Town. The lower east side of Aloe Bay is home to the famous Alabama Deep Sea Fishing Rodeo. The facility has been located here for many years and is a positive economic impact to the Town each year. Aloe Bay serves as a nursery habitat for aquatic and avian wildlife. The bay is lined on

the south by commercial sites and dilapidated boat docks, the east by grass beds, small undeveloped areas, a small shallow cove and another only slightly undeveloped area to the north. North of the project area is the Town's Utility Board's Wastewater Treatment Facility and a small residential area with a Boat Dock. Aloe Bay is mostly undeveloped but, if developed properly, will be the gateway to Dauphin Island as it is located at the end of the only bridge to the island and on the passenger side of the Dauphin Island Parkway.

Although Dauphin Island has been moderately successful in promoting tourism and fishing opportunities after the BP oil spill, there remains a significant need to provide economic opportunities to the town and its thirteen hundred residents. Specifically, there is an enormous unmet need for short-term lodging for Dauphin Island's visitors. Although the island has a couple of motels, condominiums and private homes for rental, these are only available for rental for a minimum of three days and there is no single inventory of these properties for visitors to access for rent. There is also no event space on Dauphin Island that can accommodate a multi-day event; resulting in the Town's inability to recruit longer-term tourism events. Even in the case of multiple day events such as the Deep Sea Fishing Rodeo and the Dauphin Island Regatta, the majority of its visitors stay off the island. Without the construction of a downtown business district and adjacent short-term lodging and retail space, the island will continue to lose revenue in terms of both service industries and revenues from lodging tax (which is one of the largest sources of income for the town).

Project Purpose:

The Town's proposed project (Aloe Bay Harbour Town) has several goals: preserve and increase nature habitat for aquatic and avian wildlife, create a facility for the public to view the wildlife, create a new marina for public and commercial use such as outfitters, fishing pier and commercial buildings. Harbour Town will serve as an attraction destination for tourists, locals and commercial visitors. The project approach is designed to leverage public funds to purchase property, construct nature venues, create new habitat, and create a business district to provide an economic boost to the Town.

Project Objectives:

The first phase will include an Environmental Assessment and Environmental Impact studies and initial design and engineering. This phase will gather information, define problem areas, identify potential solutions and alternatives, and its timeline for implementation. The next step is for the Town to begin the acquisition of the associated properties needed to complete the project. Phase II will develop the design and environmental permitting, establish costs and prepare construction plans and documents. Phase III (See Project ID 79) will facilitate construction of the project and set the stage for the Town to start receiving the benefits. The Harbour Town can be separated into different sub projects having distinct characteristics, but also a unique relationship to make this a destination attraction for the Town.

With the conclusion of this construction of Aloe Bay along the south shore, the Baywalk and adjacent properties along the shoreline will prepare the area of further private investment that will include short-term lodging, retail and restaurant space, and facilities for ecotourism such as deep sea fishing, kayaking, and paddleboarding in Aloe Bay.

- **How the project/program meets the identified primary activity designated in A1**

The projects for planning, design and engineering, property acquisition, and construction (See Project ID 79) of Aloe Bay's Harbour Town will create economic investment opportunities for the island's economic and ecological resources, create jobs, and allow a comprehensive master planning effort that involves its citizens and elected officials in a way that will create the best venue that reflects the true character and "flavor" of Dauphin Island.

This project is also consistent with the Dauphin Island Master Plan.

- **Specific tasks, milestones and related timeframes (Needs to directly correspond to information provided in the Restore Act Milestones Report (See sample in FAQs)**

- *Start: January 1, 2018
- *Planning: January 1, 2018-September 30, 2018 (9 month duration)
- *Engineering/Detailed Design: (1 year) July 2018-June 2019 (Late Start October 2018-September 2019); additional engineering TBD upon completion on the Master Plan.
- Permitting: (6 months) April 2018-September 2018
- Property Acquisition: (6 months) March 2018-August 2018

- Description of all funding sources (please list any other funding sources that will be dedicated to meeting project goals and objectives, both federal and non-federal (corresponds to SF-424-A form in budget attachments)

There will be no other non-Federal and Federal funding sources that will be dedicated to meeting the project goals and objectives.

- Projects designed to protect or restore natural resources must be based on best available science, (See FAQs). Include a description of the methods to be used to achieve the protection or restoration objective(s). (Also complete Question B10.)

N/A

(b) If the proposed project is part of a larger project outside the scope of this application, describe the larger project and the proposed project's relationship to it.

The planning Aloe Bay Harbortown project will prepare the island for private investment that will create more economic opportunities for its residents while preserving the important ecological and environmental assets of Aloe Bay. The planned construction of the Baywalk along the south shore of Aloe Bay along with an improved public beach access, a fishing pier and boat docking and landing facility, and associated master planning will enable the Town of Dauphin Island to attract private investment to build other venues such as a lodging and other retail space along the Baywalk.

The Town of Dauphin Island has been engaged in discussion with developers and private investors, but without the funding from RESTORE, the Town is unable to prepare the Aloe Bay area for a responsible and targeted construction that will meet the island's needs for short-term lodging, alternative boat docking and landing, and a centralized business district.

Additionally, the northern shore of Aloe Bay is the site of the proposed Dauphin Island Eco-Tourism and Education Project that would be funded by the Deepwater Horizon's Natural Resource Damage Assessment and Restoration fund. This project would purchase 100 acres along the north part of Aloe Bay that includes coastal salt marsh, privately-owned water bottom, and upland. The proposed north shore project would include 100 parking spaces on a pervious surface, public fishing pier, public restrooms, an elevated boardwalk above the marsh and bay, bicycle paths and educational displays about the cultural and natural resources of the area. By utilizing the Aloe Bay Baywalk and its adjacent streetscaping and sidewalk improvements, the north and south shore of Aloe Bay would be linked and allow the public better access to both venues.

2. Budget Justification (See 2 CFR Sub-part E, Cost Principles)

Directions: Explain in detail how the proposed budget supports the proposed scope of work. The budget justification should relate each budget category listed in the SF-424A and SF-424C to the specific tasks discussed in the response to B1. Provide specific justification for ALL budget categories that apply, including an explanation of the necessity, allowability, reasonableness, and allocability of proposed costs. Please refer to the relevant FAQs for descriptions of the budget categories.

#	Item	Item (\$)	Sub-Totals	Estimated Budget
1.	Administrative and legal expenses			\$ 209,000
	Administrative/Management	5%	\$ 109,000	
	Legal		\$ 100,000	
2.	Land, structures, rights-of-way, appraisals, etc.			\$ 1,009,000

Budget Narrative:

Administration: costs will be for a professional project management/grants management consulting firm with experience in federal grants and RESTORE as well as large-scale construction projects.

Legal: Costs will be for legal professional services to coordinate with Town of Dauphin Island Counsel and to ensure all activities for pre-construction and construction are compliant with local, state, and Federal law and regulations. Also coordinate with Design and Engineering team to consult with state and Federal agencies before beginning construction (i.e. State of Alabama, US Fish and Wildlife, US Army Corps of Engineers).

Land and Appraisal: Costs will be for purchasing parcel located on south part of Aloe Bay to ensure continuous control of all parcels of land indicated in the application so that Aloe Bay may begin the process of improving the dock and surrounding shoreline. Costs also for updated professional appraisal.

Planning and Consulting: Town of Dauphin Island will enter into a professional services agreement with planning firm to allow a comprehensive scope of Aloe Bay and its complete design. Also consultation with local architect and

engagement of Master Architect to perform design services in conjunction with planning activities. Project Management of design and engineering phase. There is also a reasonable twenty percent contingency fee for this phase of the project.

Other Architectural and Engineering fees: This cost is for performance of the Environmental Impact Statement of the Marina and associated shoreline improvement along the south shore of Aloe Bay.

3. The Applicant's Selection and Oversight of Contractors, if applicable

Directions: Indicate if the applicant plans to contract out any work described under the Budget Justification (see B2) including construction. If so, the applicant must describe the following:

- Nature of the work to be contracted out and the expected number of contracts to be awarded;

There will be one contract awarded for professional services. This contract will include the design and engineering team as well as project management and grants management.

- Procurement method(s) allowable under 2 CFR 200.320 that will be used for the procurement of the contractor(s);

The Town of Dauphin Island intends to interview prospective teams and select the best qualified firm.

- Justification under 2 CFR 200.320(f) for sole source procurement, if applicable; and

The Town of Dauphin Island will not be sole sourcing. However, the Town of Dauphin Island is allowed to contract for professional services as allowed by the State of Ala. Code Section 39-2-2(d):

(d) Excluded from the operation of this title shall be contracts with persons who shall perform only architectural, engineering, construction management, program management, or project management services in support of the public works and who shall not engage in actual construction, repair, renovation, or maintenance of the public works with their own forces, by contract, subcontract, purchase order, lease, or otherwise.

- Applicant's plan for monitoring contractor performance and compliance.

The Town of Dauphin Island will contract with an experienced project management and grants management firm that has experience with RESTORE and economic development-type projects. The Town will also be utilizing staff to closely monitor all post-award activities of contractors.

If a contractor already has been selected, also include the following:

- Name of each contractor;
- DUNS number of each contractor;
- Date the applicant executed each contract;
- Amount of each contract award;

- Procurement method allowable under 2 CFR 200.320 that was used for the procurement of each contract;

- Description of the procurement process, as implemented; and

- Justification under 2 CFR 200.320(f) for sole source procurement, if applicable.

4. Best Available Science

Directions: If the answer to the following question is "yes" complete this section.

Is the proposed activity designed to protect or restore natural resources?

Yes

No

The RESTORE Act requires activities designed to protect or restore natural resources to be based on the "best available science," which is defined in the Act as science that (a) maximizes the quality, objectivity, and integrity of information, including statistical information; (b) uses peer-reviewed and publicly available data; and (c) clearly documents risks and uncertainties in the scientific basis for such projects.

The applicant must make a determination that a project designed to protect or restore natural resources is based on the best available science. In order to support this determination, the applicant must clearly state the protection or restoration objective(s) of the project, describe the methods that will be used to achieve the objective(s), and explain how these methods are based on best available science. The response must be sufficiently detailed for Treasury to evaluate the reasonableness of the applicant's determination that the project is based on best available science. In addressing the three-pronged test in the definition of "best available science," the applicant must cite, when available, peer-reviewed, objective, methodologically sound literature sources that support the conclusion that the proposed scope of work is an effective way to achieve the stated objectives.

For each literature source cited, the applicant must provide sufficient citations, including:

- Title;
- Journal in which the literature source appeared, if applicable;
- Publication date;
- Author(s); and
- Web address if downloaded or available online.

N/A

The applicant must provide written answers to all of the following:

(Submission of source materials will not satisfy the requirements for answering this question.)

- A summary of the peer-reviewed information that justifies the proposed objectives, including methods used for the proposed activity. If peer-reviewed literature sources are unavailable, the Applicant must explicitly State this and provide A brief explanation of what alternative scientific information sources were used. If the Applicant relied on publicly available data, the Applicant must cite the source of the data, the date of collection, and the size of the data set. Whenever possible, the Applicant should use publicly available data from sources such as State agencies and federal agencies, for example the U.S. Census Bureau, U.S. Fish and Wildlife Service, Environmental Protection Agency, National Oceanic and Atmospheric Administration. The Applicant must provide a link to each publicly available data source used.

N/A

- A summary of how the applicant's methods reasonably support and are adaptable to Gulf Coast Region if the information supporting the proposed activity does not directly pertain to the Gulf Coast Region.

N/A

- A summary of an evaluation of uncertainties and risks in achieving the project's best available science objectives over the longer term; e.g., is there an uncertainty or risk that in 5-10 years the project/program will be obsolete or not function as planned given projections of sea level rise or other environmental change such as in freshwater inflows to estuaries?

N/A

- A summary of the literature sources' conclusions and any uncertainties or risks in the scientific basis that would apply to the proposed activity, including any uncertainties or risks that were identified by the public or by a Gulf Coast Ecosystem Restoration Council member.

N/A

5. Key Personnel

Directions: Key personnel should include the applicant's Authorizing Official who is authorized to sign the grant application and award, the Project Director who is responsible for the project, and the Financial Officer who is responsible for maintaining the accounting and financial records of the grant. Please provide an Organizational Chart.

Authorizing Official: Jeff Collier, Mayor of Dauphin Island

Project Director: Will be selected by the town as part of the Professional Services selection described above.

Financial Officer: Joyce Wentworth, Accounts Payable, Town of Dauphin Island

Grants Manager: Will be selected by the town as part of the Professional Services selection described above and will work with the Financial Officer and Project Director to ensure terms and conditions of the grant award are met.

6. Possible Material Risks to Implement and Maintain the Proposed Activity

Directions: List the possible material risks, e.g., operational, legal, regulatory, budgetary, or ecological risks, with a brief discussion of mitigation strategies that the applicant may need to address in order to implement and/or maintain the proposed activity. If the applicant determines that there are no material risks to implement and maintain the proposed activity, then put 'None' in the Risk column below.

Risks:

- 1) Operational Risk: Risk the project will be completed on time and on budget.
- 2) Regulatory Risk: The activity requires permitting and consultation with state and Federal agencies in order to minimize damage to the environment.
- 3) Legal: The legal risk is minimal.
- 4) Budgetary: Risk that the Town and its contractors will exceed the budget or not have enough funding to complete the project.
- 5) Ecological Risks: There are some risks to the town and island's ecology.

Mitigation Strategy:

- 1) The strategy to reduce operational risk will be to engage the services of professionals who can manage an infrastructure project of this size and scope and will utilize best practices.
- 2) The Town will engage with the relevant agencies early in the process to minimize any damage to the environment. Additionally, the Aloe Bay area already has undergone some development along the south shore and this project will increase the resiliency of the shoreline with its improvements. Furthermore, the design and building will utilize both LEED and SITES technology and best practices.
- 3) The Town is a government entity with its own resources and will engage the services of outside counsel when needed that has experience with these types of projects to assist the Town's attorney.
- 4) The town will utilize all GAAP and best practices and has a robust financial management system that will allow the applicant to monitor all contractors. It will also utilize the resources of an experienced grants manager that will check to ensure all costs are necessary and allowable under 2 CFR 200.
- 5) The Aloe Bay area already has some development and this project will improve the shoreline of the Bay while allowing the visitors and residents to enjoy it in a responsible manner.

7. Permits, Land Acquisition, Construction, and Relocation Assistance

Directions: Answer the following items concerning permits, construction, land acquisition, and relocation assistance, if applicable.

(a) Permits

Does the proposed activity require any federal, tribal, state, or local permits? For potential federal permits needed, see: (<https://www.permits.performance.gov/tools/federal-environmental-review-and-authorization-inventory>). If yes, list the specific federal, tribal, state, or local permits required for this project and the status of the permits:

It is anticipated that since the project will involve shoreline improvements on Dauphin Island, there will need to be consultation with the US Army Corps of Engineers. Once the project is approved for funding, there Town and its engineering and design team that is selected will engage with the Agency.

(b) Land Acquisition and Construction Activities

Will land be improved? If yes, answer questions i-vi

Yes No

Will land or interest in land be acquired? If yes, answer questions i-vii

Yes No

i. What are the legal rights that will be acquired?

Fee Title Easement Other _____

ii. If an easement, what is the life of the easement?

N/A

iii. Who will hold title to the land?

Town of Dauphin Island

iv. What is the total acreage of the proposed property interest to be acquired (easement or fee title)?

20 acres

v. Has the applicant obtained a recent certified appraisal of the property? If yes, attach a copy of the appraisal.

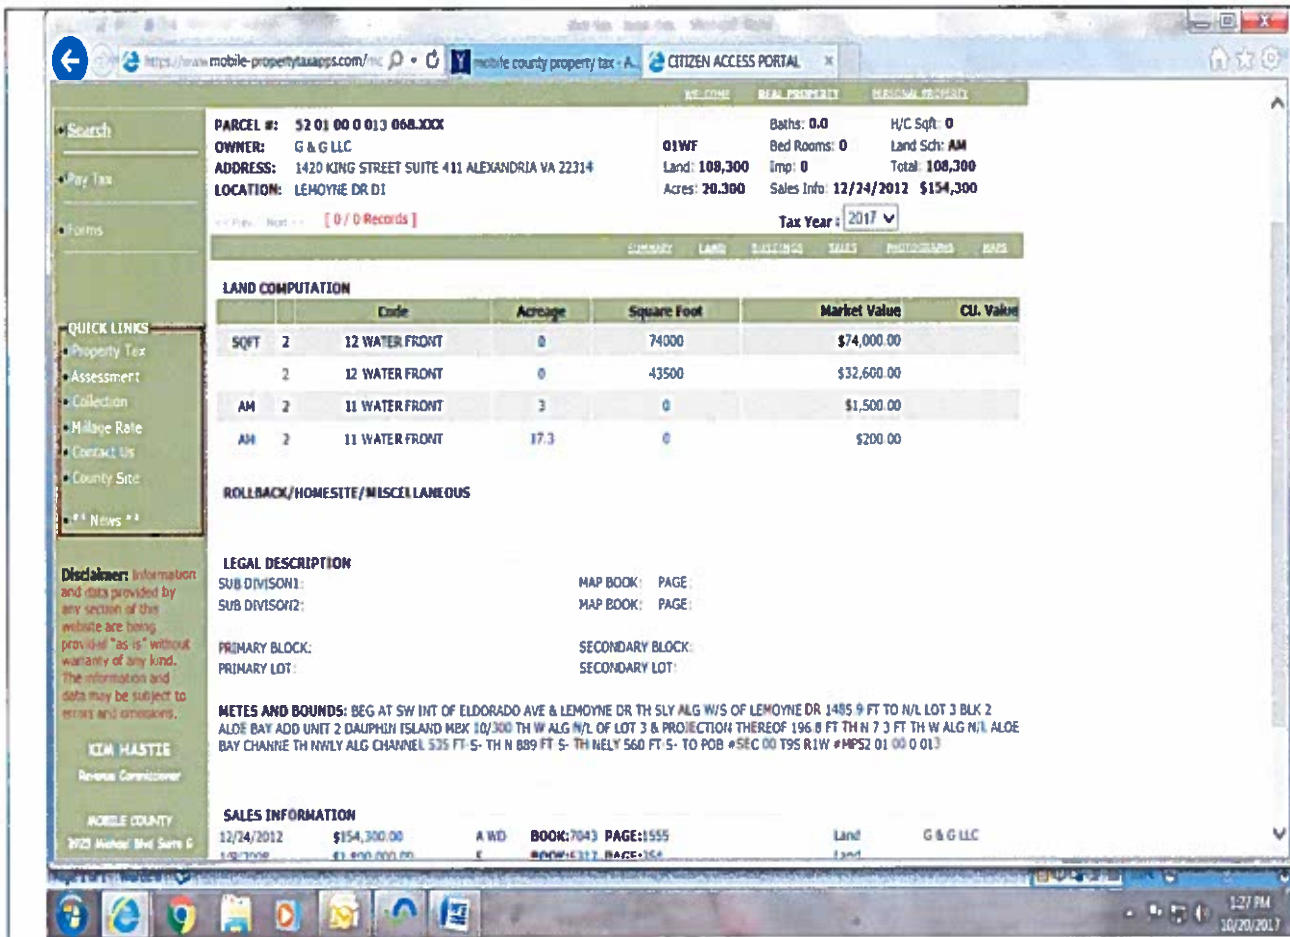

Yes No

vi. Has the applicant obtained a recent title opinion or certificate? If yes, attach a copy of the title opinion or certificate.

Yes No

vii. Attach a signed statement from the seller(s) that he/she is a willing seller and has not been coerced into selling or conveying the property interest.

viii. Attach the legal description of the property and the tax parcel number.

(c) Relocation Assistance

Will the proposed project cause the displacement of any persons, businesses, or farm operations? If yes, as required by Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, explain: the number of displaced persons, including businesses and farm operations; what fair and reasonable relocation payments and advisory services will be provided to any displaced persons; and what provisions will be made to ensure that safe, decent, and sanitary replacement dwellings will be available to such persons within a reasonable period of time prior to displacement.

No

8. Additional Project-Specific Factors

- Please discuss the proposed project's short-term and long-term benefits

Planning Assumptions: Funding if approved would enable the Town of Dauphin Island to start both the Planning/Design Phase (Project ID 291) which includes planning activities, architectural and engineering design, property acquisition and application for necessary permits and the Construction Phase (Project ID 79) which includes demolition work, civil work, and selected construction projects concurrently. The start date to commence work is assumed to be January 1, 2018. The overall duration of the Project is assumed to be 36 months. Planning Activities are assumed to take 24 months. The short-term benefits will allow the town to prepare the Aloe Bay site for construction and further investment while creating a master plan that will seek to link the Aloe Bay site with other areas of the island such as the West End beaches, Fort Gaines boat landing, and the north shore of Aloe Bay. The proposed street scaping and lighting improvements that will accompany the Baywalk will also enhance the area around Aloe Bay.

Long-Term Benefit: A more conspicuous welcome/visitor center at the Harbour Town will convey Dauphin Island as a major attraction and a combination of retail space and short-term lodging such as boutique lodging and event venue

space will increase its attractiveness as a planned downtown business district which is currently lacking on the island.

The environment-friendly development as planned for the Harbour Town will attract new visitors who are likely families with young children as well as upscale seniors in the region, and more importantly, the Harbour Town project will preserve the Aloe Bay area as a protected development, not a place dominated by unruly commercial developments in future years that will be detrimental to the image of Dauphin Island, by including such dockside industry as kayak rentals, charter vessels, paddle boats/boards, and other outdoor venues.

In summary, the Harbour Town will play the role of combining many existing attractions that Dauphin Island currently has, and meet the need for short-term lodging, increased retail and food service establishments, and create a sense of "place" for a walkable downtown Dauphin Island.

- The purpose of the RESTORE Act is to provide funding for ecological and economic recovery efforts for damages incurred as a result of the Deepwater Horizon Oil Spill. Please discuss how the proposed project's implementation will prevent any adverse impacts elsewhere.

Dauphin Island is one of only five communities across the nation to receive the American Shore and Beach Preservation Association's 2017 "Best Restored Beaches" award. The Aloe Bay project intends to utilize best practices such as LEED and SITES certification for its design and building that will increase the resiliency of the project.

- Does the proposed project expand or promote an existing industry or offer diversification? If so, please explain:

The Aloe Bay project will expand the existing tourism industry of Dauphin Island while also increasing the diversity of its attractions by allowing a responsible development around Aloe Bay that will allow visitors to enjoy the natural resources of the island and promote more ecotourism opportunities for its visitors and residents.

- Does the proposed project create short-term job opportunities? If so, how many? Please justify:

The project will create short-term job opportunities as construction commences.

- Does the proposed project create long-term job opportunities? If so, how many? Please justify:

The proposed Aloe Bay project will create long-term job opportunities as ecotourism opportunities develop around the Baywalk and the north shore of Aloe Bay. As more buildings are constructed for lodging and retail space, this will also lead to more jobs and revenue from sales and lodging tax.

- Please discuss how the proposed project will be sustained post-implementation including any annual recurring costs

The Aloe Bay project will increase economic investment opportunities for the Town of Dauphin Island. The increase in revenue from any ecotourism and food service establishments around Aloe Bay will help in defraying any recurring costs. Also the Town intends to engage the services of a master planner and developer to identify additional investment opportunities that will lead to increased revenue for the town such as lodgings and retail spaces.

- Please discuss how the proposed project will use cutting-edge technology (i.e., LID, LEED, permeable surfaces)

The Town of Dauphin Island intends to utilize LEED, SITES and other best practices that will increase the long-term resiliency of the Aloe Bay project and Dauphin Island. The town will engage the services of planning and design professionals that have particular expertise in utilizing these types of cutting-edge technology in coastal communities such as Dauphin Island.

- Because the Gulf Coast Restoration Trust Fund will receive deposits over a 15-year period, the Council may consider funding projects in phases. In the event this proposed project is not fully funded, please discuss how the project might be implemented in phases. Keep in mind each phase must result in a stand-alone product.

The project as proposed will be phased into Phase I (Project 291) for pre-construction activities and Phase II/III (Project 79) for construction activities for Aloe Bay. As the streetscape and other improvements are added along with any construction from private investment (such as lodging and retail space), it is envisioned that these can be phased according to the master plan that will be conducted in Phase I.

RESTORE Act Environmental Checklist
Department of the Treasury

OMB Approval Number 1505-0250

Directions: The following questions will aid the applicant in identifying the environmental laws that may apply to the eligible activity and the environmental documents that may be required from listed agencies and submitted with the grant application. Follow up to the questions should be listed in the table located on the last page of the checklist. Treasury will use the submittals to record the Applicant's assertion that it has complied with applicable environmental laws.

PROPOSED PROJECT NAME: Aloe Bay Harbour Town (Phase I & II) (Proj. ID 291)
APPLICANT NAME: Town of Dauphin Island

FEDERAL LAWS

1.1 NATIONAL ENVIRONMENTAL POLICY ACT (NEPA)

The NEPA of 1969 (42 U.S.C. 4321 et seq.) provides a national policy that encourages "productive and enjoyable harmony between man and his environment; to promote efforts which will prevent or eliminate damage to the environment and biosphere and stimulate the health and welfare of man . . ." The NEPA requires that all federal agencies use a systematic, interdisciplinary approach for protection of the human environment; this approach will ensure the integrated use of the natural and social sciences in any planning and decision-making that may have an impact upon the environment. The NEPA also requires the preparation of a detailed Environmental Impact Statement (EIS) on any major federal action that may have a significant impact on the environment. An Environmental Review may be required based on the answers to the following questions:

- 1) Will the proposed activity be under the permitting authority of any federal agency?
Yes No
- 2) Will the proposed activity receive federal assistance (other than RESTORE Act funding)?
Yes No
- 3) Will the proposed activity be subject to any federal regulatory decision or approval?
Yes No

If the answer to any of these questions is "yes," contact the relevant federal agency or agencies for further guidance on environmental compliance. Additional information concerning NEPA can

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 1505-0250. Comments concerning the time required to complete this information collection, including the time to review instructions, search existing data resources, gathering and maintaining the data needed, and completing and reviewing the collection of information, should be directed to the Department of the Treasury, Office of Gulf Coast Restoration, 1500 Pennsylvania Ave., NW, Washington, DC 20220.

be found at: <https://ceq.doe.gov/>.

- 4) Has any environmental review (e.g., NEPA documentation or state or tribal equivalent) been prepared for this proposed eligible activity?

Yes No

If yes, please attach a copy of the documentation to this checklist.

1.2. COASTAL ZONE MANAGEMENT ACT (CZMA)

A federal consistency determination or certification pursuant to Section 307 of the Coastal Zone Management Act may be required from the state coastal zone management program, based on the answers to the following questions:

- 1) Will the proposed activity occur in or near the state designated coastal zone (<https://coast.noaa.gov/czm/media/StateCZBoundaries.pdf>)?

Yes No

- 2) Is the activity likely to have reasonably foreseeable effects on any land or water use or natural resource of the designated coastal zone?

Yes No

If the answer to either of these questions is "yes," contact the State Coastal Zone Management Program (<https://coast.noaa.gov/czm/about/?redirect=301ocm>) for further guidance on federal consistency requirements in your state. Additional information on federal consistency can be found at: <https://coast.noaa.gov/czm/consistency/>.

1.3 ENDANGERED SPECIES ACT (ESA)

A consultation pursuant to Section 7 of the Endangered Species Act and/or a permit and conservation plan pursuant to Section 10 may be required based on the answers to the following questions:

- 1) Will the proposed activity occur in proximity to threatened or endangered species or critical habitat as defined by the ESA and under the jurisdiction of the National Marine Fisheries Service (NMFS) (<http://www.nmfs.noaa.gov/pr/laws/esa/>) or the U.S. Fish and Wildlife Service (USFWS) (<http://www.fws.gov/Endangered/>)?

Yes No

- 2) Will the proposed activity potentially affect threatened or endangered species or critical habitat as defined by the ESA and under the jurisdiction of NMFS or USFWS?

Yes No

If the answer to either of these questions is "yes," or you are unsure, contact the regional office of USFWS (<http://www.fws.gov/offices/>) and/or NMFS (<http://www.nmfs.noaa.gov/>) to determine if consultation is required. Most consultations are conducted informally with the federal agency or a designated non-federal representative. Non-federal representatives may be involved in the informal consultation process and may request and receive species lists, prepare the biological assessment, and provide information for the formal consultation. However, the USFWS requires the action agency to designate formally the non-federal representative in writing. Moreover, the ultimate responsibility for Section 7 obligations remains with the action agency. Additional information concerning Section 7 consultations can be found in the Endangered Species Act Consultation Handbook at: <http://www.fws.gov/policy/m0002.html>. Additional information concerning Section 10 permits and conservation plans can be found at: http://www.nmfs.noaa.gov/pr/permits/ESA_permits.html.

1.4 MIGRATORY BIRD TREATY ACT AND BALD AND GOLDEN EAGLE PROTECTION ACT The Migratory Bird Treaty Act makes it illegal for anyone to take, possess, import, export, transport, sell, purchase, barter, or offer for sale, purchase, or barter, any migratory bird, or the parts, nests, or eggs of such a bird except under the terms of a valid permit issued pursuant to Federal regulations. The migratory bird species protected by the Act are listed in 50 C.F.R. 10.13. The Bald and Golden Eagle Protection Act prohibits anyone, without a permit issued by the Secretary of the Interior, from "taking" bald eagles [or any golden eagle], including their parts, nests, or eggs. The Act defines "take" as "pursue, shoot, shoot at, poison, wound, kill, capture, trap, collect, molest or disturb." A permit may be required based on the answers to the following questions:

- 1) Will the proposed activity affect any migratory bird species protected by the Migratory Bird Treaty Act?

Yes No

- 2) Will the proposed activity affect any bald or golden eagles protected by the Bald and Golden Eagle Protection Act?

Yes No

If the answer to either question is "yes" or you are unsure, contact the regional office of USFWS (<http://www.fws.gov/offices/>). More information can be found at: <http://www.fws.gov/birds/policies-and-regulations/laws-legislations/migratory-bird-treaty-act.php> and <http://www.fws.gov/birds/policies-and-regulations/laws-legislations/bald-and-golden-eagle-protection-act.php>.

1.5 MAGNUSON – STEVENS FISHERY CONSERVATION AND MANAGEMENT ACT (FCMA)

Consultation with the NMFS may be required if Essential Fish Habitat (EFH) is present and based on the answers to the following questions:

- 1) Will the proposed activity occur in proximity to Essential Fish Habitat as identified by the nearest Regional Fishery Management Council (<http://www.fisherycouncils.org/> and <http://www.nmfs.noaa.gov/sfa/management/councils/>)

Yes No

- 2) Will the proposed activity potentially adversely affect EFH?

Yes No

If the answer to either of these questions is “yes” or you are unsure, contact the nearest regional office of the NMFS (<http://www.nmfs.noaa.gov/>) or Regional Fishery Management Council (<http://www.fisherycouncils.org/>) to determine if consultation is required. Additional information concerning EFH can be found at: <http://www.habitat.noaa.gov/index.html>. Information about consultations can be found in the Essential Fish Habitat Consultation Guidance at: http://www.habitat.noaa.gov/pdf/efhconsultationguidancev1_1.pdf.

1.6 MARINE MAMMAL PROTECTION ACT (MMPA)

A permit may be required if an activity will result in the “take” of a marine mammal. Taking is defined as “to harass, hunt, capture, or kill, or attempt to harass, hunt, capture, or kill any marine mammal.” Permits for most marine mammals are issued by NMFS. Manatees, polar bears, sea otters, walruses, and dugongs, however, are under the jurisdiction of the USFWS.

- 1) Will the proposed activity occur in proximity to any known marine mammals (<http://www.nmfs.noaa.gov/pr/species/mammals/>)?

Yes No

- 2) Will the proposed activity likely result in the take of a marine mammal?

Yes No

If the answer to either of these questions is “yes,” or you are unsure, contact the nearest regional office of NMFS (<http://www.nmfs.noaa.gov/>) to determine if a permit is required. Additional information concerning marine mammal permits can be found at: <http://www.nmfs.noaa.gov/pr/> and http://www.nmfs.noaa.gov/pr/permits/mmpa_permits.html.

1.7 MARINE PROTECTION, RESEARCH, AND SANCTUARIES ACT (MPRSA)

Titles I and II of the Marine Protection, Research, and Sanctuaries Act (MPRSA), also referred to as the Ocean Dumping Act, generally prohibits (1) transportation of material from the United States for the purpose of ocean dumping; (2) transportation of material from anywhere for the purpose of ocean dumping by U.S. agencies or U.S.-flagged vessels; (3) dumping of material transported from outside the United States into the U.S. territorial sea. A permit may be required based on the answers to the following questions:

1) Does the proposed activity involve an activity covered by the MPRSA?

Yes No

If the answer to this question is "yes," contact the Environmental Protection Agency's (EPA's) Office of Wetlands, Oceans, and Watersheds/Oceans and Coastal Protection Division for further guidance (<http://www.epa.gov/aboutepa/about-office-water#wetlands>). Additional information about permits under the MPRSA can be found at: <http://www.epa.gov/laws-regulations/summary-marine-protection-research-and-sanctuaries-act>.

1.8 NATIONAL MARINE SANCTUARIES ACT

Each National Marine Sanctuary has its own unique set of regulations. There are some regulatory prohibitions that are typical for many sanctuaries: 1) discharging material or other matter into the sanctuary; 2) disturbance of, construction on or alteration of the seabed; 3) disturbance of cultural resources; and 4) exploring for, developing or producing oil, gas or minerals (with a grandfather clause for preexisting operations). A permit may be required from the National Oceanic and Atmospheric Administration (NOAA) based on the answers to the following questions:

1) Is the proposed activity located in a National Marine Sanctuary (<http://sanctuaries.noaa.gov/about/regions.html>)?

Yes No

If the answer to this question is "yes," contact the nearest Regional Office of NOAA's National Marine Sanctuaries Program for further guidance (<http://sanctuaries.noaa.gov/about/southeast.html>).

1.9 CLEAN WATER ACT (CWA)

A separate type of permit is required to dispose of dredge or fill material in the Nation's waters, including wetlands. Authorized by Section 404 of the Act, this permit program is administered by the U.S. Army Corps of Engineers (USACE), subject to and using environmental guidance from the EPA. Some types of activities are exempt from permit requirements, including certain farming, ranching, and forestry practices that do not alter the use or character of the land; some construction and maintenance; and activities already regulated by States under other provisions of the Act. A permit may be required from the USACE based on the answers to the following

questions:

- 1) Will the proposed activity result in any disposal of dredge or fill material to the nation's waters or wetlands?

Yes No

If the answer to this question is "yes," contact the Regulatory Program of the nearest District Office of the USACE (<http://w3.saj.usace.army.mil/permits/HQAvatar/index.htm>) for further guidance on Section 404 permits.

A Water Quality Certification (Section 401) is required for activities that may result in a discharge into navigable waters, including wetlands, watercourses, and natural or man-made ponds. A National Pollution Discharge Elimination System (NPDES) permit may also be required for such discharges.

- 1) Will the proposed activity result in any discharge to navigable waters?

Yes No

If the answer to this question is "yes," contact your state water quality agency for additional guidance. Additional information concerning Section 401 or NPDES requirements can be found at: <http://www.epa.gov/owow/wetlands/waterquality> and <http://cfpub.epa.gov/npdes/>

1.10 CLEAN AIR ACT (CAA)

Special conditions may be required on projects that could affect air quality, based on the answers to the following questions:

- 1) Will the proposed activity result in any direct or indirect emissions within a non-attainment area (<http://www3.epa.gov/airquality/greenbook/define.html>)?

Yes No

If the answer to this question is "yes," contact the nearest state air quality agency (<http://www.4cleanair.org>) for further guidance on determining conformity with the state implementation plan.

1.11 NATIONAL HISTORIC PRESERVATION ACT (NHPA) AND THE ARCHAEOLOGICAL AND HISTORIC PRESERVATION ACT (AHPA)

Special conditions may be required on projects that could affect historic resources, based on the answers to the following questions:

- 1) Will the proposed activity occur near property listed or eligible for listing in the National Register of Historic Places (<http://www.nps.gov/nr>), or near property otherwise protected

by section 106 of the National Historic Preservation Act (<http://www.achp.gov/nps.html>) or a similar State Preservation Act?

Yes No

If the answer to this question is "yes," or you are unsure, contact your state historic preservation office (<http://www.ncshpo.org/>) for further guidance concerning compliance requirements.

1.12 COASTAL BARRIER RESOURCE ACT (CBRA)

Federal funding may be prohibited for projects that occur on certain designated coastal barriers, based on the answer to the following questions:

- 1) Is the proposed activity located on an undeveloped coastal barrier designated by the Coastal Barriers Resources Act (<http://www.fws.gov/cbra/>)?

Yes No

If the answer to this question is "yes," contact the nearest Regional Office of USFWS (<http://www.fws.gov/where>) for further guidance.

1.13 RIVERS AND HARBORS ACT

A permit may be required from the USACE based on the answers to the following questions:

- 1) Will the proposed activity involve any work (including structures) that will occur in, over or under navigable waters of the United States?

Yes No

If the answer to this question is "yes," contact the Regulatory Program of the nearest District Office of the USACE (<http://w3.sai.usace.army.mil/permits/HQAvatar/index.htm>) for further guidance on Section 10 permits. The USACE can authorize activities by a standard individual permit, letter-of-permission, nationwide permit, or regional permit. The USACE will make the determination on what type of permit is needed.

1.14 RESOURCE CONSERVATION AND RECOVERY ACT (RCRA)

A RCRA permit may be required from the EPA or designated state agency based on the answers to the following question:

- 1) Will the proposed activity include the long-term storage, treatment, or disposal of hazardous materials or petroleum products?

Yes No

If the answer to this question is "yes," contact the nearest RCRA Regional Office of the EPA or state authorized agency (<http://www.epa.gov/compliance/resource-conservation-and-recovery->

act-rcra-compliance-monitoring) for further guidance on RCRA compliance.

1.15 COMPREHENSIVE ENVIRONMENTAL RESPONSE, COMPENSATION, AND LIABILITY ACT (CERCLA)

Special provisions and requirements may apply based on the answer to the following question: (<http://www.epa.gov/superfund/sites/index.htm>).

- 1) Will the proposed activity involve a Superfund site?

Yes No

If the answer to this question is "yes," contact the nearest Regional Office of the EPA (<http://www.epa.gov/aboutepa/visiting-regional-office>) for further guidance on CERCLA requirements.

1.16 WILD AND SCENIC RIVERS ACT

The Wild and Scenic Rivers Act prohibits federal support for actions such as the construction of dams or other instream activities that would harm the free-flowing condition, water quality, or outstanding resource values of a designated Wild and Scenic River. There are designated rivers in the Gulf Coast States and the Act may apply based on the answer to the following questions:

- 1) Is the proposed activity located on a designated Wild and Scenic River (<http://www.rivers.gov/index.php>)?

Yes No

If the answer to this question is "yes," contact the nearest Regional Office of the USFWS (<http://www.fws.gov/where>) for further guidance.

1.17 SAFE DRINKING WATER ACT

A permit may be required if the proposed activity will involve underground injection which may impact drinking water sources and based on the answer to the following question:

- 1) Will the proposed activity involve underground injection which may impact drinking water sources?

Yes No

If the answer to the question is "yes," contact the nearest state drinking water or underground injection control program. For more information see: <http://water.epa.gov/lawsregs/guidance/sdwa/>.

1.18 FARMLAND PROTECTION POLICY ACT (FPPA)

Projects are subject to FPPA requirements if they may irreversibly convert farmland (directly or indirectly) to nonagricultural use and are completed by a Federal agency or with assistance from a Federal agency. The project may be subject to the FPPA based on the answers to the following questions:

- 1) Will the proposed activity irreversibly convert farmland (directly or indirectly) to nonagricultural use?

Yes No

If the answer to the question is "yes," contact your local office of the Natural Resources Conservation Service (NRCS) or USDA Service Center. For more information see: http://www.nrcs.usda.gov/wps/portal/nrcs/detail/?cid=nrcs143_008275

EXECUTIVE ORDERS

Executive Orders are directives from the President of the United States to federal agencies and officials.

2.1 E.O. 11988 AND E.O. 13690 – FLOODPLAIN MANAGEMENT

Executive Order 11988, as amended by Executive Order 13690 requires that an eight-step process be followed for projects that may have potential impacts to or within floodplains.

- 1) Is the proposed activity located in a designated floodway or "V-zone" on a National Flood Insurance Program map: (<http://msc.fema.gov/portal>)?

Yes No

If the answer to this question is "yes," contact the nearest Regional Office of the Federal Emergency Management Agency (<https://www.fema.gov/regional-contact-information>) for further guidance.

2.2 E.O. 11990 and E.O. 12608– WETLAND PROTECTION

This Executive Order requires agencies to avoid providing assistance for new construction located in wetlands unless there is no practicable alternative to such construction, and that the proposed action includes all practicable measures to minimize harm to wetlands which may result from such use. The Executive Order defines wetlands: "(c) The term "wetlands" means those areas that are inundated by surface or ground water with a frequency sufficient to support and under normal circumstances does or would support a prevalence of vegetative or aquatic life that requires saturated or seasonally saturated soil conditions for growth and reproduction. Wetlands generally include swamps, marshes, bogs, and similar areas such as sloughs, potholes, wet meadows, river overflows, mud flats, and natural ponds." (See <http://www.fws.gov/wetlands/Data/Mapper.html>)

1) Is any portion of the project proposing a new construction activity in wetlands?

Yes No

If the answer to this question is "yes," provide documentation in the grant application demonstrating that: (1) there is no practicable alternative, and (2) the proposed activity includes all practicable measures to minimize harm to wetlands.

2.3 E.O. 12898 – ENVIRONMENTAL JUSTICE

This Executive Order requires that "each federal agency shall make achieving environmental justice part of its mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects of its programs, policies, and activities on minority populations and low-income populations."

1) Will the proposed activity have disproportionately high and adverse human health or environmental effects on minority or low-income populations?

Yes No

If the answer to this question is "yes," see the Council on Environmental Quality website for further guidance on Environmental Justice: https://ceq.doe.gov/nepa_information/justice.html.

2.4 E.O. 13089 – CORAL REEF PROTECTION

This Executive Order requires that any actions that are authorized or funded by federal agencies not degrade the condition of coral reef ecosystems. Some of the Gulf Coast States contain coral reef ecosystems and include National Marine Sanctuaries (<http://sanctuaries.noaa.gov>).

1) Will the proposed activity involve a coral reef ecosystem or National Marine Sanctuary?

Yes No

If the answer to this question is "yes," contact the National Oceanic and Atmospheric Administration Coral Reef Conservation Program (<http://www.coralreef.noaa.gov>) for further guidance. Additional information regarding Executive Order 13089 can be found at: <https://ceq.doe.gov/nepa/regs/eos/eo13089.html>.

2.5 E.O. 13112 – INVASIVE SPECIES

This Executive Order requires agencies to prevent the introduction of invasive species and provide for their control.

- 1) Will the proposed activity have the potential to introduce or cause the spread of an invasive species? For more information on invasive species, see <http://www.invasivespeciesinfo.gov/index.shtml>.

Yes No

If the answer to this question is "yes," provide documentation demonstrating that the benefits of the activity clearly outweigh the potential harm caused by invasive species, and that all feasible and prudent measures to minimize risk of harm will be taken in conjunction with the actions.

2.6 E.O. 13186 – RESPONSIBILITIES OF FEDERAL AGENCIES TO PROTECT MIGRATORY BIRDS This Executive Order requires the incorporation and promotion of migratory bird conservation considerations into all agency activities. The Gulf Coast States contain North American migration flyways.

- 1) Is the proposed activity likely to occur during a time of the year when migrating birds are in the vicinity?

Yes No

If the answer to this question is "yes," contact the nearest Regional Office of the U.S. Fish and Wildlife Service (<http://www.fws.gov/where>) for further guidance. Additional information regarding Executive Order 13186 can be found at: <http://www.fws.gov/migratorybirds>.

2.7 E.O. 13653 – PREPARING THE UNITED STATES FOR THE IMPACTS OF CLIMATE CHANGE This Executive Order requires federal agencies to identify and support smarter, more climate- resilient investments by States, local communities, and tribes, including by providing incentives through agency guidance and grants.

- 1) Will the proposed activity incorporate elements that promote climate-resilience (e.g., to rising sea levels)?

Yes No

If yes, include a brief description of the climate-resilient elements in the grant application - proposed activity description.

Executive Order 13563 can be found at: <https://www.gpo.gov/fdsys/pkg/FR-2013-11-06/pdf/2013-26785.pdf>.

Report the status of your contact with required agencies/tribes on the table below which coincides with the environmental laws outlined in the checklist. Provide the date of contact, name of agency/tribe contacted, location, and any necessary permit, certification, or other determination or mitigation proposed by the agency/tribe. If none, state so.

Status of Contact Table

Federal law as listed in checklist	Date of contact	Name of agency/tribe contacted	Location	Permit, certification, determination or mitigation required

Organization: Town of Dauphin Island

RESTORE Act Milestones Report

Instructions for Completing Form:

Please complete Columns B-E in the initial report submitted as part of an application package. After a grant is awarded, complete Columns F-G for each milestone as applicable and submit as part of the performance reports. The values in Columns E and G should each total 100%. These milestones should reflect what is in the applicant's scope of work as described in the applicable RESTORE Act Direct Component Application Narrative.

Applicant/Grantee: Town of Dauphin Island

Title: Aloe Bay/Harbour Town (Design and Engineering)-Project 291

Reporting Period Ending:*

A. Milestone #	B. Milestone Description	C. Estimated Completion Timeframe of Milestone (Format: award + # of months)	D. Is milestone contingent upon completion of another milestone (Y/N)? If yes, which milestone is it contingent upon (# from Column A)?	E. What percentage of the Scope of Work is estimated to be completed with this milestone?	F. Actual Completion Date of Milestone (Format: Month/Year)	G. Estimate percentage of budget for the awarded Scope of Work spent on milestone
1	Comprehensive Planning	Award plus 9 months	No	25.00%		0.00%
2	Environmental/Permitting	Award plus 9 months	No	4.00%		0.00%
3	Property Acquisition	Award plus 9 months	No	67.00%		0.00%
4	Preliminary Engineering	Award plus 12 months	No	4.00%		0.00%
				0.00%		0.00%
				0.00%		0.00%
				0.00%		0.00%
				0.00%		0.00%
	This row is for Columns E and G Totals			100.00%		0.00%

Applicant/Grantee: Town of Dauphin Island
 Title: Aloe Bay/Harbour Town (Project 291)
 Reporting Period Ending:
 Goal(s): Create an attractive tourist venue that creates a walkable downtown business district and allows visitors and citizens to view wildlife; create a Baywalk and retail and food service along Aloe Bay for tourists; and create a venue that will attract private investment.

A. Eligible Activity #	B. Measure #	C. Measure	D. Baseline	E. Target	F. Target Date	G. Progress Toward Target (reporting period)	H. Progress Toward Target (cumulative)	I. Status/Next Step
6	1	Comprehensive Plan that allows thoughtful planning of Aloe Bay/Harbour Town	No plan	Plan is completed	9 months from award			Design/Engineering for Aloe Bay commences (Pre-construction activities)
6	2	Engineering/Design allows for permitting and pre-construction to begin	No design or engineering plans	Plan is completed	18 months from award			Permitting and pre-construction continues
6	3	Permitting is conducted after consultation with appropriate state and Federal agencies	No permits are issued	Permits are acquired	Award plus 9 months			Property is acquired for Aloe Bay project along south shore
6	4	Property is acquired for Baywalk construction	Baywalk is not continuous	1 parcel is purchased	Award plus 6 months			Construction begins on Phase II and III for Aloe Bay/Harbour Town
6	5							

RESTORE Act Direct Component Applicant Certifications Department of the Treasury

OMB Approval No. 1505-0250

Directions: These certifications are required by federal law and Department of the Treasury (Treasury) regulations to be submitted with each application to Treasury for financial assistance under the RESTORE Act Direct Component. The certifications must be signed by an authorized senior official of the Applicant who can legally bind the entity and has oversight for the administration and use of the Direct Component funds.

A. RESTORE Act Certification

Pursuant to the RESTORE Act, I certify that for any award Agreement resulting from this application:

1. Each activity funded under this Agreement has been primarily designed to restore and protect [select all that are appropriate: the natural resources, ecosystems, fisheries, marine and wildlife habitats, beaches, coastal wetlands, or economy] of the Gulf Coast region.
2. Each activity funded under this Agreement is designed to carry out one or more of the eligible activities for the Direct Component.
3. Each activity funded under this Agreement was selected after consideration of all meaningful input from the public, including broad-based participation from individuals, businesses, Indian tribes, and nonprofit organizations, as described in the grant application.
4. Each activity funded under this Agreement that protects or restores natural resources is based on the best available science, as that term is defined in 31 C.F.R. Part 34.
5. This recipient has procedures in place for procuring property and services under this award that are consistent with the procurement standards applying to Federal grants. This recipient will not request funds under this award for any contract unless this certification remains true and accurate.
6. Pursuant to 2 C.F.R. § 200.303, this recipient will establish and maintain effective internal control over any award made based on this application that provides reasonable assurance that this recipient is managing the award in compliance with Federal statutes, regulations, and the terms and conditions of the award. No material deficiencies in this recipient's internal controls are known.
7. A conflict of interest policy consistent with 2 C.F.R. § 200.318(c) is in effect and covering each activity funded under this Agreement.
8. This recipient will comply with Title VI of the Civil Rights Act of 1964, the Rehabilitation Act of 1973, and all other applicable federal laws and regulations concerning anti-discrimination.

I make each of these certifications based on my personal knowledge and belief after reasonable and diligent inquiry, and I affirm that this Applicant maintains written documentation sufficient to support each certification made above, and that this Applicant's compliance with each of these certifications is a condition of this Applicant's initial and continuing receipt and use of the funds provided under this Agreement.

B. Certification Regarding Debarment, Suspension, and Other Responsibility Matters -- Primary Covered Transactions

Instructions: The inability of an applicant to provide the certification required below will not necessarily result in the denial of participation in

this covered transaction. The prospective Applicant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with Treasury's approval of the proposed Application. However, failure of the Applicant to furnish a certification or an explanation shall disqualify such person/entity from participation in this transaction. Please be advised of the following:

1. This certification is a material representation of fact upon which reliance is placed when Treasury determines to enter into this transaction. If it is later determined that the Applicant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal government, Treasury may terminate this transaction for cause or default.
2. The Applicant shall provide immediate written notice to Treasury if at any time the Applicant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
3. The terms "covered transactions," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause (certification), have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549. You may contact Treasury for assistance in obtaining a copy of those regulations (31 C.F.R. Part 19).
4. The Applicant agrees by submitting this Application that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by Treasury.
5. The Applicant further agrees by submitting this Application that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," to be provided by Treasury, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions (see 31 C.F.R. Part 19, Appendix).
6. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List.
7. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
8. Except for transactions authorized under paragraph 4 of this certification, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended,

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 1505-0250. The time required to complete this information collection is estimated to average 10 hours, including the time to review instructions, search existing data resources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Comments concerning the accuracy of the time estimate and suggestions for reducing this burden should be directed to the Department of the Treasury, RESTORE Act Program, 1500 Pennsylvania Ave., NW, Washington, DC 20005.

debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, Treasury may terminate this transaction for cause or default.

By signing and submitting this Application, the prospective primary participants (the Applicant) is providing the certification set out below. The prospective primary participant (the Applicant) certifies to the best of its knowledge and belief, that it and its principals:

1. Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
2. Have not within a three-year period preceding this Application been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
3. Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and
4. Have not within a three-year period preceding this Application had one or more public transactions (Federal, State or local) terminated for cause or default.

Where the Applicant is unable to certify to any of the statements in this certification, such Applicant shall attach an explanation to this proposal.

C. Certification Regarding Drug-Free Workplace Requirements

The Applicant certifies that it will provide a drug-free workplace by:

1. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the Applicant's workplace and specifying the actions that will be taken against employee for violations of such prohibition;
2. Establishing a drug-free awareness program to inform employees about:
 - a. The dangers of drug abuse in the workplace;
 - b. The Applicant's policy of maintaining a drug-free workplace;
 - c. Any available drug counseling, rehabilitation, and employee assistance program;
 - d. The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace
3. Making it a requirement that each employee to be engaged in the performance of the award be given a copy of the statement required by paragraph (1) of this certification;
4. Notifying the employee in the statement required by paragraph (1) of this certification that, as a condition of employment in such grant, the employee will:
 - a. Abide by the terms of the statement; and
 - b. Notify the employer of any criminal drug use statute conviction for a violation occurring in the workplace no later than five calendar days after such conviction;

5. Notifying the granting agency in writing, within ten calendar days after receiving notice of a conviction under paragraph (4)(b) of this certification from an employee or otherwise receiving actual notice of such conviction;

6. Taking one of the following actions, within 30 days of receiving notice under paragraph (4)(b) of this certification, with respect to any employee who is so convicted:

- a. Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or
- b. Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency; and

7. Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs 1 through 6 above.

D. Certification Regarding Lobbying

The Applicant certifies, to the best of his or her knowledge and belief, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the Applicant, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The Applicant shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all sub-recipients shall certify and disclose accordingly. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by title 31 U.S. Code section 1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

ALABAMA GULF COAST RECOVERY COUNCIL

Subrecipient Questionnaire

This questionnaire is used to help determine a subrecipient organization's financial and management strength, which helps assess risk and dictates the monitoring plan for subrecipients. Please complete the following questionnaire and submit all related documents as necessary.

SECTION A: GENERAL INFORMATION	
Project Title:	Aloe Bay Harbour Town (
Point of Contact for matters concerning this project:	Name: Jeff Collier, Mayor Address: 1011 Bienville Blvd Dauphin Island, AL 36528 Phone: 251-861-5525 Fax: 251-861-2154 Email: jcollier@townofdauphinislands.org URL: www.townofdauphinisland.org DUNS #: 7823966340000 EIN: 63-0980084 Reg. In SAM? Yes <input type="radio"/> No <input checked="" type="radio"/> Number of Employees: 35 Exp. Date of Current SAM Registration: <u>February 24, 2018</u>
SECTION B. SUBRECIPIENT ELIGIBILITY	
Is your organization or your organization's principals presently debarred, suspended, proposed for debarment, declared ineligible or voluntarily excluded from participation in this transaction by any federal department or agency?	
<input type="radio"/> Yes <input checked="" type="radio"/> No	
If yes, please skip the rest of the questionnaire, sign and return the questionnaire with the Project Evaluation Packet.	
SECTION C. SUBRECIPIENT ORGANIZATION INFORMATION (please fill out the information below, as appropriate)	
1. Type of organization (check all that apply):	
<input type="radio"/> University <input checked="" type="radio"/> Government Entity <input type="radio"/> Foundation <input type="radio"/> Non-Profit Org <input type="radio"/> For-Profit Org <input type="radio"/> Other _____	
2. Fiscal year dates (month and year):	
3. Name of designated federal cognizant agency, if applicable:	
None	

4. Negotiated Indirect Cost Rate:

Yes No URL: _____

If yes, please provide a copy of your current rate agreement or provide the URL. If no, a de minimis rate of 10% of MTDC will be used in accordance with 2 CFR 200.414.

5. Fringe Benefit rate:

Yes No URL: _____

If yes, please provide a copy of your current fringe benefit rate memorandum or provide the URL.

6. Has organization received in the past the same or similar Federal subawards to the current subaward? (2 CFR 200.330)

Yes No

If yes, subrecipient hereby agrees to provide further documentation upon request.

7. Does organization have on-going direct Federal awards? (2 CFR 200.330)

Yes No

If yes, is the awarding agency currently monitoring subrecipient activity?

Yes No

If yes, please describe:

8. Please certify policies and/or procedures exist that address the following:

- | | | |
|---|---|--|
| <input checked="" type="radio"/> Pay Rates and Benefits | <input checked="" type="radio"/> Conflict of Interest | <input checked="" type="radio"/> Purchasing |
| <input checked="" type="radio"/> Time and Attendance | <input checked="" type="radio"/> Travel | <input checked="" type="radio"/> Equipment & Inventory |
| <input checked="" type="radio"/> Leave | | |

By signing this document, subrecipient certifies that policies and/or procedures shown above are in place. If not, then subrecipient agrees to abide by the State's policies and/or procedures.

9. Is Government property inventory maintained that identifies purchase date, cost, vendor, description, serial number, location, and ultimate disposition data?

Yes No N/A

10. Has any new system been recently put in place or has there been any change to the existing system (e.g., accounting, information, management, etc.)? (2 CFR 200.331)

Yes No

If yes, please explain:

11. Does organization have any new personnel (e.g., key personnel, financial management, grants management, IT management, or other staff serving in grants administration role)? (2 CFR 200.331)

Yes No

If yes, please explain:

12. Has organization in the preceding fiscal year expended any federal funds in either direct or indirect Federal awards?

Yes No

If yes, please indicate the expenditure amount:

13. Have annual financial statements been audited by an independent audit firm? If yes, provide a copy of the statements for the most current fiscal year.

Yes No

14. Does organization adhere to Subpart E Cost Principles of 2 CFR 200 under the proposed subaward?

Yes No N/A

15. Does organization have a financial management system that provides records that can identify the source and application of funds for award-supported activities?

Yes No

16. Does the financial system provide for the control and accountability of project funds, property, and other assets?

Yes No

17. Are duties separated so that no one individual has complete authority over an entire financial transaction?

Yes No

If no, please explain below:

18. Does your organization have controls to prevent expenditure of funds in excess of approved, budgeted amounts?

Yes No

If no, please explain below:

19. Are all disbursements properly documented with evidence of receipt of goods or performance?

Yes No

If no, please explain below:

20. Are all bank accounts reconciled monthly?

Yes No

If no, please explain below:

21. Are payroll charges checked against program budgets?

Yes No

If no, please explain below:

22. What system does your organization use to control paid time, especially time charged to sponsored agreements?

The Town of Dauphin Island doesn't have any sponsored agreements.

23. Does the organization have procedures which provide assurance that consistent treatment is applied in the distribution of charges to all sponsored agreements, grants and contracts?

Yes No

If no, please explain below:

24. Does your organization have a formal policy of nondiscrimination and a formal system for complying with federal civil rights requirements?

Yes No

If no, please explain below:

25. Describe your organization's procedures to ensure that costs deemed unallowable, per Federal guidelines (2 CFR 200), are excluded from the amount charged to a grant?

The Town will be using a checks and balances with our Accounts Payable Supervisor, as well as hiring a Grants Manager as part of the project team that has familiarity with 2 CFR 200.

26. Are there procedures to ensure procurement at competitive prices?

Yes No

If no, please explain below:

27. Are detailed records of individual capital assets kept and periodically balanced with the general ledger accounts?

Yes

No

If no, please explain below:

28. How does the organization ensure that all cost transfers are legitimate and appropriate?

The Town uses GAAP in its Accounts Payable and Accounts Receivables to ensure all accounting and cost transfers are legitimate and appropriate. As a Government Entity, the Town is charged with ensuring fiduciary responsibility for its revenues and outlays.

Authorized Representative Approval

By signing below, the authorized representative certifies, to the best of subrecipient's knowledge, all information submitted on this form, or attached for submission to ADCNR, is accurate and complete.

ASSURANCES - CONSTRUCTION PROGRAMS

OMB Number: 4040-0009
Expiration Date: 01/31/2019

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0042), Washington, DC 20503.

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

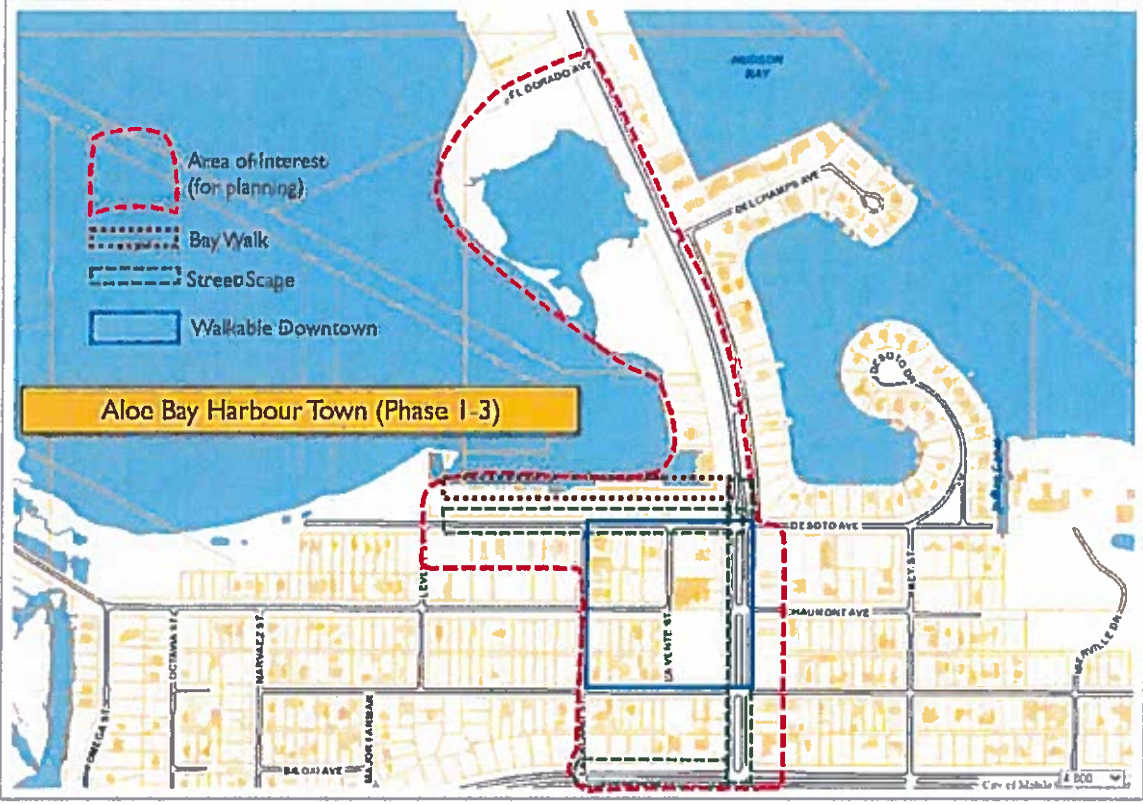

NOTE: Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the Awarding Agency. Further, certain Federal assistance awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant, I certify that the applicant:

1. Has the legal authority to apply for Federal assistance, and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project costs) to ensure proper planning, management and completion of project described in this application.
2. Will give the awarding agency, the Comptroller General of the United States and, if appropriate, the State, the right to examine all records, books, papers, or documents related to the assistance; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
3. Will not dispose of, modify the use of, or change the terms of the real property title or other interest in the site and facilities without permission and instructions from the awarding agency. Will record the Federal awarding agency directives and will include a covenant in the title of real property acquired in whole or in part with Federal assistance funds to assure non-discrimination during the useful life of the project.
4. Will comply with the requirements of the assistance awarding agency with regard to the drafting, review and approval of construction plans and specifications.
5. Will provide and maintain competent and adequate engineering supervision at the construction site to ensure that the complete work conforms with the approved plans and specifications and will furnish progressive reports and such other information as may be required by the assistance awarding agency or State.
6. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.
7. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.
8. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed standards of merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).
9. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§4801 et seq.) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.
10. Will comply with all Federal statutes relating to non-discrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. §794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290 dd-3 and 290 ee 3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.

11. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal and federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.
12. Will comply with the provisions of the Hatch Act (5 U.S.C. §§1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.
13. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§276a to 276a-7), the Copeland Act (40 U.S.C. §276c and 18 U.S.C. §874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§327-333) regarding labor standards for federally-assisted construction subagreements.
14. Will comply with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is \$10,000 or more.
15. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.); (f) conformity of Federal actions to State (Clean Air) implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (P.L. 93-523); and, (h) protection of endangered species under the Endangered Species Act of 1973, as amended (P.L. 93-205).
16. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.
17. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. §470), EO 11593 (Identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §§469a-1 et seq.).
18. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and OMB Circular No. A-133, "Audits of States, Local Governments, and Non-Profit Organizations."
19. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations, and policies governing this program.
20. Will comply with the requirements of Section 106(g) of the Trafficking Victims Protection Act (TVPA) of 2000, as amended (22 U.S.C. 7104) which prohibits grant award recipients or a sub-recipient from (1) Engaging in severe forms of trafficking in persons during the period of time that the award is in effect (2) Procuring a commercial sex act during the period of time that the award is in effect or (3) Using forced labor in the performance of the award or subawards under the award.

Memo - Alabama Gulf Coast Recovery Council

From - Jeff Collier, Mayor

Re: Project #291

Dear Council Members,

This is to confirm that the useful life of all infrastructure associated with Project #291; Aloe Bay Harbour Town is indefinite.

If you need any additional information regarding this matter please notify.

Respectfully Submitted,

Jeff Collier
Mayor

Alabama Gulf Coast Recovery Council
Proposal Evaluation for Direct Component Summary Sheet

Project Name: Aloe Bay / Harbour Town E&D/Permitting Project ID: 291

Requested Funding: \$ 2,183,485 Additional Funding Sources Amount: \$0

Additional Funding Secured? Y N Unknown

Can Funding be secured from other sources? Y N Unknown

Geographic Area of Project: Town of Dauphin Island, Mobile County

Restore Act Project Classification: Planning assistance

1. Key Activities Identified:

- multiple activities identified - planning assistance best eligible activity
- funding for phase I of Aloe Bay / Harbour town restoration / enhancement / rejuvenation project

2. Status of Project Readiness/Time to Completion:

- if implemented as a planning / scoping / E&D+permitting project - project is ready to be implemented.
- Time to completion: 3 years

3. Summary of potential risks to implement and maintain proposed activities:

- unknown costs to construction as yet
- land acquisition will mean that there is a perpetual federal interest

4. Permit(s) Required: Y N Unknown

5. If yes, status of permit(s): Have not submitted application Application(s) submitted
 Permit(s) obtained

6. Described benefit/need to the community/region:

- enhance tourism, town revenues, and lodging tax revenues in a popular tourist destination in Alabama

7. Comments and summary from independent evaluation:

Eligible under Bucket 1 and potentially under Bucket 3.
 Recommend funding prior to funding project #79.
 Per 31 CFR 34, infrastructure must be publicly owned.
 Federal procurement standards will apply (2 CFR 200).
 Pass-through award, increase monitoring effort by ADCNR.
 Treasury Regulations 31 CFR 34.2 requires Infrastructure projects to be owned by a public entity
 Unclear to how many acres were being purchased.

Land acquisition will mean that there is a perpetual federal interest

Supplemental Evaluation Information

Project Name: Aloe Bay / Harbour Town E&D/Permitting

Project ID: 291

Does project:

8. Demonstrate benefits in relation to cost of project: Y N NA

Reviewer Comments

- unknown at this time based on unknown construction costs and limited understanding of the impacts of the project on occupancy, tourism etc.

9. Quantify or qualify Short-term/long-term economic benefits: Y N NA

Reviewer Comments

- short term environmental compliance and E&D contract work
- longer term enhanced tourism, lodging tax rates, and town revenues
- attract additional small businesses

10. Adequately demonstrate need: Y N NA

Reviewer Comments

current lack of short-term lodging and event space to accommodate multi-day events.

11. Prevent adverse impacts elsewhere: Y N NA

Reviewer Comments

- all impacts would be localized to Aloe bay, as likely mitigation measures are in place

12. Expand/promote an existing industry or offers diversification: Y N NA

Reviewer Comments

expand existing tourism industry while increasing the diversity of attractions

13. Demonstrate short- or long-term job creation: Y N NA

Reviewer Comments

Short term: construction jobs

Long term: ecotourism opportunities as well as lodging and retail jobs

14. Provide measurable outcomes: Y N NA

Reviewer Comments

permits, land acquisition and design plans

15. Address potential risks and uncertainties: Y N NA

Reviewer Comments

- a number of considerations have been and still need to be addressed, that could be or would be handled during an initial scoping/ planning phase, as well as through community engagement, and environmental compliance review

- sea level rise and accommodation of those scenarios to construction projects (i.e., sustainability of the project)

16. Address use of cutting-edge technology: Y N NA

Reviewer Comments

Town of Dauphin Island intends to utilize LEEDS, SITES and other best practices that will increase the long-term resiliency of the project.

17. Address environmental compliance needs and status: Y N NA

Reviewer Comments

- environmental compliance including permitting is included as a phase of this project

- this initial phase is required before proceeding with construction

18. Demonstrate post-implementation sustainability, including recurring costs: Y N NA

Reviewer Comments

- would be addressed through planning / scoping, community engagement and E&D requirements based on permit conditions.

- E&D designs would likely have to consider barrier island, sand migration, as well as sea level rise scenarios

19. Demonstrate budget reasonableness: Y N NA

Reviewer Comments

- the original budget is difficult to understand how it was estimated and what's included (see project #79). Based on the project description this project is to "upgrade" Aloe Bay/Harbour town, the budget also includes Parks and Recreation (4 parks) - is this envisioned for the town of Dauphin Island or do these four parks reside in Aloe Bay?

- +/- \$2.3million project - unsure of costs as planning/ E&D based on complete construction

- Construction made up of 4 components: 1) wastewater/water, 2) River Walk Marina (Harbour Town?), 3) Parks and Recreation, and 4) Streetscape.

- how was the \$1 million for land identified? Yellow-book appraised lands? How many acres?

20. If Best Available Science is required, is narrative adequate? Y N NA

Reviewer Comments

- n/a based on planning assistance eligibility

21. Can project be phased? Y N NA

Reviewer Comments

- this project is the initial phase of a much larger project (Project 79).

22. Is project included in an existing strategic/comprehensive plan? Y N

Reviewer Comments

- Unknown if the City of Dauphin Island has a master town plan and it is unknown whether upgrades to Aloe Bay and Harbour town are within those plans.

23. Feasibility and Logistics (next steps, hurdles, barriers, other considerations)

- permitting and E&D to better understand construction costs
- focusing on what this project will undertake for revitalization
- procurement requirements

24. Additional Options (phasing, etc.)

- this project is a phase of a larger construction project (#79)

25. Additional Comments from Reviewer

- this initial phase is critical for E&D, permitting, and more broadly to get an understanding of the prioritization of construction and need for the future phases of the project.
- construction estimates from project #79 will be refined based on the outcomes of this project.
